

Air 1 is very important to my family. We get our news from this station and updates about happenings in the Christian community. It is the only music I listen to and I know many residents of my community that would say the same. Air 1 serves the public interest by providing news, encouraging and uplifting music that you don't have to fear will contain something young children should hear. I would not have a radio station that I could let my children listen to if it is replaced. Air 1 is an important part of my life and the lives of many residents in my area. Please keep this valuable station on the air. I listen to Air 1 on 93.7 f.m.
